Event Description:

“What if my support staff does not want to get vaccinated?” “Do I still have to wear a mask?” “When can I go to work or to my day program?” These are just a few questions people may have at this stage of the COVID-19 public health emergency. To discuss answers to these questions, DDS invites our support community and stakeholders to participate in a virtual discussion about assuring rights during COVID-19.

During this guided conversation, we will talk about ways to support people to achieve the balance of exercising rights with staying healthy and safe. You will also learn where to find important information that will help you stay up to date with any public health guidance changes.
