

## ✓ CHECKLIST FOR DEVELOPING BEHAVIORAL INTERVENTIONS

**INSTRUCTIONS:** When developing behavioral intervention plans, use a ✓ to indicate completion of each step.

1.	Identify the behavior to change.
2.	Complete a functional assessment of the behavior.
3.	Measure the frequency, intensity, and/or duration of the behavior.
4.	Complete a reinforcer preference assessment.
5.	Develop effective communication strategies.
6.	Identify appropriate social skills, communication skills, or problem-solving skills to teach.
7.	Develop antecedent control strategies.
8.	Develop self-regulation strategies (e.g. relaxation).
9.	Develop strategies for teaching new behaviors.
10.	Develop strategies for reinforcing desired behaviors.
11.	Develop a crisis plan, if needed.
12.	Determine procedures for measuring progress.
13.	Review progress on a regular basis.
14.	If progress is satisfactory, continue using the intervention program.
15.	If progress is unsatisfactory, refer to the checklist titled "Why BSPs Fail: Checklist for Troubleshooting Unsatisfactory Progress."
16.	Fade reinforcers.
