**CHECKLIST FOR DEVELOPING BEHAVIORAL INTERVENTIONS**

**INSTRUCTIONS:** When developing behavioral intervention plans, use a ✓ to indicate completion of each step.

1. Identify the behavior to change.
2. Complete a functional assessment of the behavior.
3. Measure the frequency, intensity, and/or duration of the behavior.
5. Develop effective communication strategies.
6. Identify appropriate social skills, communication skills, or problem-solving skills to teach.
7. Develop antecedent control strategies.
8. Develop self-regulation strategies (e.g. relaxation).
10. Develop strategies for reinforcing desired behaviors.
11. Develop a crisis plan, if needed.
13. Review progress on a regular basis.
14. If progress is satisfactory, continue using the intervention program.
15. If progress is unsatisfactory, refer to the checklist titled “Why BSPs Fail: Checklist for Troubleshooting Unsatisfactory Progress.”
16. Fade reinforcers.
