

Supporting Families Community of Practice Meeting

April 8, 2016 at the R.I.S.E. Demonstration Center

Government Partners Employment Panel Questions

1. Please start off by introducing yourself, where you work, and what your role is there.
2. In 5 minutes or less, tell us what your agency does to support employment of people with disabilities?
3. In 5 minutes or less, tell us how you have seen families play a role in supporting a family member with a disability in employment?
4. Twenty-somethings, with or without disabilities, are still very much in a transitional mode to adulthood, and still very much exploring what direction their life might take – more school, what type of work, etc. These are uniquely formative years, and I think RSA and DDA need to have specific plans in place for this age group, which is growing in the DDS cohort.
