

LIST OF MEDICARE'S CERTIFIED DMEPOS SUPPLIERS

Information partners can use on:

Durable Medical Equipment, Prosthetics, Orthotics, and Supplies Competitive Bidding Program: Temporary Gap Period

All Medicare Durable Medical Equipment, Prosthetics, Orthotics, & Supplies (DMEPOS) Competitive Bidding Program (CBP) contracts expire on December 31, 2018. Starting January 1, 2019, there will be a temporary gap in the DMEPOS CBP that CMS expects will last until December 31, 2020.

During the temporary gap, any Medicare enrolled DMEPOS supplier may furnish DMEPOS items and services to people with Medicare. In most cases, people with Medicare won't need to switch suppliers on or after January 1, 2019. Suppliers must continue to furnish:

- Capped Rental items (such as wheelchairs, hospital beds, and continuous positive airway pressure devices) through the remainder of the 13-month rental period. Title to the equipment must be transferred from the supplier to the person with Medicare using the equipment after the end of the 13th month.
- Oxygen and oxygen equipment through the remainder of the 36-month rental period. After the 36th continuous month of Medicare payment, the supplier is required to continue providing the oxygen and oxygen equipment during any period of medical need for the remainder of the five-year reasonable useful lifetime of the oxygen equipment.

An exception to these two requirements is if people with Medicare travel or permanently move outside their supplier's normal service area. Suppliers that furnish oxygen equipment for the 36th continuous month of Medicare payment must arrange for people with Medicare to get their oxygen and oxygen equipment in the new area for the remainder of the 5-year reasonable useful lifetime of the equipment.

For all other DMEPOS items (for example, diabetes testing supplies, enteral nutrients/supplies, or IV poles), people with Medicare may have to switch to another supplier if their current supplier isn't willing to continue providing the items on or after January 1, 2019.

You can remind people with Medicare to:

- Use the Medicare Supplier Directory (www.medicare.gov/supplier) to locate a supplier.
- Call 1-800-MEDICARE (1-800-633-4227) to locate a supplier, ask a question, or file a complaint.
- Ask if their supplier accepts Medicare assignment. If the supplier doesn't accept assignment, the person with Medicare could be responsible for paying higher coinsurance.
- Beware of aggressive marketing by suppliers:
 - Don't let anyone persuade them to switch suppliers. Talk to their supplier first because they may not need to make a change.
 - Remember that Medicare and Medicaid don't send representatives to their homes to sell products or services.
 - Don't be influenced by certain media advertising. Many television and radio ads don't have their best interest at heart.
 - Report fraud using the HHS Office of Inspector General's "<https://forms.oig.hhs.gov/hotlineoperations/report-fraud-form.aspx>" online form, or
 - Call the Fraud Hotline of the HHS Office of Inspector General at 1-800-HHS-TIPS (1-800-447-8477).

You have the right to get Medicare information in an accessible format, like large print, Braille, or audio. You also have the right to file a complaint if you feel you've been discriminated against. Visit <https://www.medicare.gov/about-us/nondiscrimination/accessibility-nondiscrimination.html>, or call 1-800-MEDICARE (1-800-633-4227) for more information. TTY users can call 1-877-486-2048.

Paid for by the Department of Health & Human Services.

GLUCOSE MONITORS AND SUPPLIES SUPPLIERS

Revised November 2018

Glucose Monitors and Supplies

Dear Clinician,

Please note that this article is only intended to be a general summary. It is not intended to take the place of the written law, regulations, or national or local coverage determinations. Please refer to the Glucose Monitors LCD and Policy Article (L33822) for further information on Medicare coverage, documentation requirements, and orders which may be reviewed at the CMS Medicare Coverage Database at: <https://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx>.

The following information is intended to provide you with guidance on Medicare's coverage and documentation requirements for blood glucose monitors (BGMs) and testing supplies.

The quantity of test strips and lancets that are covered, if the basic criterion above is met, is shown below.

Treatment regimen	Basic coverage Test strips and lancets
Insulin treated	300 per 3 months
Non-insulin treated	100 per 3 months

- Additional quantities of test strips can be covered if they are documented to be medically necessary – as outlined below.
- Coverage is also provided for a lancing device, calibration solution, and replacement batteries.

MEDICAL NECESSITY DOCUMENTATION

CMS expects that clinician records will reflect the care provided to the patient including evidence of the medical necessity for the prescribed frequency of testing. You are not required to fill out additional forms from suppliers or to provide additional information to suppliers unless specifically requested of the supplier by the DME MAC.

The face-to-face examination must document that the patient was evaluated and/or treated for a condition that supports the need for the item(s) of DME ordered. Both the written order and the face-to-face examination must be provided to the supplier before they can dispense the glucose monitor to the patient.

It is critical that the patient's medical record demonstrates the medical necessity for glucose testing supplies, which includes:

- Diagnosis
- Treatment regimen (insulin treated versus non-insulin treated)
- Basic coverage criteria for the BGM and any related supplies; and,
- Evidence of the patient's use at this frequency

For quantities of supplies that exceed the limits specified in the LCD, there must be:

- Documentation by the clinician in the patient's medical record of the necessity for the higher frequency of testing, which may include some of the following elements:

- Names, dosages, and frequency of administration of medications used to treat the diabetes;
- Frequency and severity of symptoms related to hyperglycemia and/or hypoglycemia;
- Review of patient-maintained log of glucose testing values;
 - Logs of self-testing values including the date, time, and results;
 - Information about medication dosage adjustments related to the results is also helpful;
- Changes in the patient's treatment regimen as a result of glucose testing results review;
- Dosage adjustments that the patient should make on their own based on self-testing results;
- Laboratory tests indicating level of glycemic control (e.g., hemoglobin A1C);
- Other therapeutic interventions and results.

Not every patient's medical record will contain all of these elements; however, there must be enough information in the patient's medical record to support the medical necessity for the quantity of item(s) ordered and dispensed.

ORDERS

For initial dispensing of a standard BGM (code E0607), you must provide a Five Element Order (5EO), which must be received by the supplier prior to dispensing the item to your patient.

Also note that someone other than the physician/practitioner may complete the Detailed Written Order (DWO) of the item unless statute, manual instructions, the contractor's LCD or policy articles specify otherwise. However, the prescribing physician/practitioner must review the content and sign and date the document.

Note: A new order for diabetic testing supplies is required only if:

- there is a change in the frequency of testing,
- when replacing a BGM, or
- there is a change in supplier.

Note: If the supplier provides you with a prepared "written order" for your signature and date, you should inspect this document carefully. Suppliers must not add unrelated items to the detailed written order, whether requested by the patient or not, in the absence of your explicit approval.

Sincerely,

Wilfred Mamuya, MD, PhD

WHEELCHAIR REPAIRS SUPPLIERS

From: Robinson, Thomas (CMS/CFMFFSO) [<mailto:Thomas.Robinson@cms.hhs.gov>]
Sent: Wednesday, September 28, 2016 9:14 AM
To: Kinsey, Carmencita (DHCF)
Subject: Wheelchair Repairs (MTN: 389439)

Dear Ms. Kinsey,

Any Medicare enrolled supplier can repair wheelchairs that the beneficiary owns. That supplier does not have to be a competitive bid contract supplier. Additionally, Medicare will also pay for repairs to wheelchairs that were not paid for by Medicare. When the claim is submitted the supplier must indicate that the beneficiary owns the equipment. Listed below is a national wheelchair repair supplier/provider.

Wheelchair and Scooter Repairs
1-888-584-3095
1-800-776-1918
