Description of NCI:

This survey was developed in conjunction with the National Core Indicators (NCI), an effort that began in 1997 and is co-sponsored by the National Association of State Directors of Developmental Disabilities Services (NASDDDS) and the Human Services Research Institute (HSRI). The purpose of NCI is to identify and measure core indicators of performance of state developmental disabilities service systems. Currently, 40 States, the District of Columbia, and 22 sub-state entities participate in NCI. This survey is intended to measure performance indicators originally identified by the NCI Operations Committee, which is made up of representatives from the participating states. For more information, go to www.nationalcoreindicators.org.

Organization of Survey:

The survey consists of five parts.

- The **Pre-Survey Form** requests information that may be useful for scheduling and conducting the face-to-face surveys. This information is not analyzed by HSRI and cannot be placed into the Online Data Entry Survey Application (ODESA).

- The **Background Information** section consists of information that will be analyzed in conjunction with the face-to-face survey responses. This information must be collected for all individuals surveyed. Most states collect this information from case manager or system records, however, some states use surveyors to collect some of this information directly from the individual, guardian, or family. The state will specify which elements need to be obtained directly by the surveyor.

- **Section I** contains questions that may only be answered by face-to-face meetings with the person receiving services and supports. These are subjective, "satisfaction" related questions that may not be answered by anyone else.

- **Section II** contains questions that may be answered by the individual or someone who knows the person well (proxy respondent), such as a family member, friend, staff person, guardian or advocate. Service coordinators or case managers are not allowed to be Section II respondents. If the individual is answering, the questions need to be asked face-to-face. If a proxy respondent answers, questions need to be asked face-to-face if all possible. Only when necessary, questions for proxy respondents may be asked over the phone.
The **Surveyor Feedback Sheet** is the last page of the survey. Please fill out one sheet for each survey you complete.
The Pre-Survey Form is intended to provide surveyors with the information they will need to schedule and conduct the face-to-face surveys. The state should review this form and decide what information will be provided to surveyors in advance (e.g., name, phone number, communication needs, etc.), how the information will be gathered (e.g., service coordinators, databases, surveyors etc.), and determine the administrative procedures (including informed consent) that must be followed when arranging the face-to-face surveys.

It is strongly suggested that as many Pre-Survey items as possible be filled out and reviewed before starting the face-to-face survey. Experience has shown that using familiar names and terms helps the respondent understand the questions being asked and facilitates the survey process. Surveyors can use the Pre-Survey items to fill in blanks in Sections I and II of the survey form where indicated with a symbol. Doing this prior to the face-to-face survey helps the conversation flow more smoothly.

None of the Pre-Survey information is submitted to HSRI. Actual procedures for using the Pre-Survey Form should be determined by the state’s NCI coordinator and communicated to surveyors during training. These procedures should also be communicated to HSRI.

BI-50. Is this person currently using a self-directed supports option?

“Self-directed” or “participant-directed” supports options offer individuals (and their representatives, including family members) the opportunity to manage some or all of their services. They may hire & fire their own support workers and/or control how their budget is spent.

- 1 No → code BI-51 and 39-44 as NOT APPLICABLE
- 2 Yes
- 3 Don’t know → code BI-51 and 39-44 as NOT APPLICABLE

BI-51. If yes, who employs this person’s support workers?

- 8 NOT APPLICABLE – not using self-directed/participant-directed supports
- 1 The person (or his/her representative) is the common-law employer. A fiscal intermediary functions as the person’s agent to perform payroll and other responsibilities required by law.
- 2 An “agency with choice” is the common-law employer of the support workers selected/recruited by the individual and performs necessary payroll and human resources functions. The person (or his/her representative) is the co-employer (managing employer).
- 3 Don’t know

### BEHAVIORAL SUPPORT NEEDS

Analyses of project data show that the extent of behavioral support needs is significantly related to many of the questions on the survey. The requested information is used to "adjust" the data in order to make valid comparisons of performance across states. The responses will not be used to identify any individual.

The person conducting this survey may ask a family member or staff person on site to fill out the questions on the following page. This information may also be obtained from service coordinators or through record review. These questions rely upon the assessment of someone who knows the individual well. Please identify the level of support the person needs to manage any of the types of behavior listed below.

SECTION I: Face-to-face Survey With Person Receiving Services and Supports

General Instructions:

✧ This section may only be completed by directly surveying the person receiving services and supports.

✧ Prior to the survey, surveyors should use the pre-survey form to fill in the blanks throughout the survey. Using familiar names and terms during the survey will help ensure that the person understands the questions. Questions that refer to pre-survey information are indicated with a bell symbol: ☳

✧ Do not use responses from any other person to complete this section.

✧ If possible, the survey should be conducted in private. Others may be present if the individual requests, or if another person is needed for interpretation purposes. If staff believe that a private survey may pose risks to surveyors, then staff should be present. If others are providing assistance, surveyors should emphasize that we are trying to find out the individual’s perspective.

✧ Be sure to read all instructions carefully.

✧ Help the person with any words that are not understood. You may repeat or rephrase questions to improve understanding. Some questions have suggested rephrasing in italics - you do not need to limit yourself to these suggestions.

✧ Do not read or show the list of response options to the individual. Let them answer in their own words and then code the most appropriate response.

✧ Individuals may skip any question. If the person receiving services does not respond to a question or gives an unclear response, code the question as “9.”

✧ If you have any questions concerning the intent of a survey question or need additional help in rephrasing a question, refer to the list of Core Indicators in your training packet.

✧ A wide margin is provided for recording notes as necessary. Just be sure your response choices are clearly marked.

✧ Please fill out the Surveyor Feedback Sheet after each interview.
Take a few minutes to introduce yourself and make the person feel comfortable. Read or paraphrase the following introduction. Pause after each statement, making sure the respondent understands.

“Hi, my name is ____. I'm from _____, and I'm here to ask you some questions about where you live, where you work, your friends and family, and the people who help you. By answering these questions, you are helping us figure out how people in _____ (State) are doing, and how to make supports and services better.”

“This is not a test, and there are no right or wrong answers to these questions. If you don’t understand a question, let me know and I’ll try to explain it. It’s okay if you don’t know how to answer. Whatever answers you give, you will not get into trouble and no one will be mad at you.”

“You don’t have to answer any questions that you don’t want to. Just tell me if you don’t want to answer.”

“I’d like to know your opinions, how you feel about things. Whatever you tell me will be kept private, so you can be honest.”

Note: Before beginning Section I, make sure that the appropriate consent has been received from the individual or guardian (see questions below).

Consent Questions:

#CQ1. (Required)- Did the individual or legal guardian give consent to participate in this survey?  
___ Yes ___ No

If required in your state, please answer the following questions (otherwise leave blank).

#CQ2. Did individual/legal guardian give verbal consent for the surveyor to contact him/her? 
___ Yes ___ No

#CQ3. Is the signature of a legal guardian required for this individual to consent to participation in this survey? 
___ Yes ___ No

#CQ4. If required, did individual/legal guardian give written consent to be surveyed? 
___ Yes ___ No

SELF-DIRECTED SUPPORTS

ASK QUESTIONS 39-44 ONLY IF PERSON USES A SELF-DIRECTED SUPPORTS OPTION (SEE PS-11 and QUESTION BI-50).

If person does not use self-directed supports, code these questions as NOT APPLICABLE.

For those who are using self-directed supports, the surveyor may need to explain the term “budget” – for example, the money discussed at your planning meeting that you can use to hire your own staff or purchase things you need. This is different from spending money or a personal budget. Refer to PS-11 for terms the person may be familiar with.

39) Does someone talk with you about your budget and the services you can get?

PS-11

Does someone talk with you about your ________________?

__8  NOT APPLICABLE
__2  Yes
__1  Maybe, not sure
__0  No → code Questions 40-44 as NOT APPLICABLE

40) Is there someone who helps you decide how to use your budget/services?

__2  Yes
__1  Maybe, not sure

41) Can you make changes to your budget/services if you need to? (Can you decide to buy something different?)
42) Do you want more help deciding how to use your budget/services, or do you have enough help?

__8 \hspace{2em} \text{NOT APPLICABLE}
__2 \hspace{2em} \text{Yes}
__1 \hspace{2em} \text{Maybe, not sure}
__0 \hspace{2em} \text{No}
__9 \hspace{2em} \text{Don’t know, no response, unclear response}

43) Do you get information about how much money is left in your budget/services?

\textbf{PS-11} \hspace{2em} Do you get information from \underline{____________________} (financial management service)?

__8 \hspace{2em} \text{NOT APPLICABLE}
__2 \hspace{2em} \text{Yes}
__1 \hspace{2em} \text{Maybe, not sure}
__0 \hspace{2em} \text{No} \Rightarrow \text{code Question 44 as NOT APPLICABLE}

44) If yes, is the information easy to understand?

__8 \hspace{2em} \text{NOT APPLICABLE}

__1 \hspace{2em} \text{Maybe, not sure}
__0 \hspace{2em} \text{No}
__9 \hspace{2em} \text{Don’t know, no response, unclear response}
45) **Surveyor:** Could Section I be completed?

   __1  Yes, person answered independently or with some assistance
   __2  Yes, person answered using alternate/picture response format
   __3  No, person could not communicate sufficiently to complete this section
   __4  No, person was unwilling to participate
   __5  No, other reason

46) **Surveyor:** In your opinion, did the individual appear to understand most of the questions or not?

   __8  NOT APPLICABLE – did not complete Section I
   __2  Yes, appeared to understand most questions (even if prompted) and could give an opinion
   __1  Not sure
   __0  No, appeared to have very little understanding or comprehension

47) **Surveyor:** In your opinion, did the individual seem to answer the questions in a consistent manner? (Do you feel his/her responses were valid?)

   __8  NOT APPLICABLE – did not complete Section I
   __2  Yes, seemed to give consistent and valid responses
   __1  Not sure
   __0  No, did not seem to give consistent and valid responses

If you answered "yes" to questions 45-47, then determine now if s/he is willing to answer more questions. If the individual is not willing to continue, or if you believe comprehension or consistency was a problem and person does not have a proxy respondent, then say:

"Thank you for your help. It’s been very nice talking to you. You’ve been very helpful."

If the person is willing to continue or has a proxy respondent available, please continue to Section II.
STOP - Please review Section 1 questions #45-47. Please make sure you have answered those questions before proceeding.

Ask the person receiving services the Section II questions if all possible. If the person is unwilling or unable to complete this section, other respondents may be surveyed (family, advocate, staff; however not the case manager or service coordinator). If the individual did not complete Section 1 or if you believe that s/he did not understand the questions and/or did not answer consistently, do not ask the individual the Section II questions...only ask the proxy respondent(s). Proxy respondents must be knowledgeable in the areas below (they should know the person well and have frequent contact with him/her). Use the alternate wording provided when questioning proxy respondents (e.g., 'Did this person...?').

For all questions, indicate who the respondent was; please check only one respondent for each question.

If both the individual and the proxy respondent contributed to the answer, and there is agreement between the two, check “individual” as the respondent.

If there is disagreement between the individual and the proxy respondent, you may need to ask follow up questions to determine the most valid response.

Ask the person if s/he wishes to continue with the questions, or if s/he would like to take a short break.
COMMUNITY INCLUSION

In this section, we are trying to find out if the person participates in integrated community activities (including people with and without disabilities). If the individual indicates they have only participated in a non-integrated activity (where only people with disabilities are participating) in the past month, then you should check ‘no’ as the response. If the person answers “yes,” you may ask for an example to verify that the person understood the question and that the activity was indeed integrated.

# CHOICES

The intent of these questions is to determine the extent to which persons receiving services are involved in decision-making.

- In this section, code “2” if this person played a major role in making the decision. The person may have consulted with others but ultimately made the decision for him/herself.
- Code “1” if the person had some input in making the decision but did not play a major role.
- Code “0” if the person did not have input in making the decision.
- Choices made with spouses/partners should be coded as “2- person made the choice”.
- Do not overuse the "NOT APPLICABLE" code here. It is not appropriate to use "8" to indicate NOT ALLOWED or NOT CAPABLE of making decisions in this area. For those cases, code “0”.

Read one of the following introductions to the respondent(s):

**For Individuals:**
I'm going to ask some questions now about some decisions you may have made or helped make. For each question, I'd like you to tell me if you made the choice yourself, if you had some say about it, or if someone else decided for you.

**For Proxy Respondents:**
I'm going to ask some questions now about decisions this person may have made. For each question, please indicate if s/he made the decision, if s/he had some input in making the decision, or if someone else made the decision for him/her.
