Handouts from the Meeting

- ❖ Agenda

Review of April 6, 2018, Minutes

- ❖ No substantive changes made to the minutes.

SPCD response to PCR Annual Service Coordination Review

- ❖ Postponed to next meeting

Discussion GUCCHD Re-Hospitalization Study Presentation

- ❖ The committee furthered its discussion of the re-hospitalization study presented at last meeting. Members discussed aspects of the study and methods used to determine study findings. GUCCHD clarified that the “other” category was not a major cause of hospitalizations and was provided for informational purposes only.
- ❖ A related discussion included a review of Serious Reportable Incident (SRI) data for unplanned or emergency inpatient hospitalizations from FY15 – FY18 to date. The analysis focused on February, March, and April in each year. The review indicated that there was 14% decrease in reported unplanned hospitalizations in between FY15 and FY16; 3% increase between FY16 and FY 17; and a 10% increase from FY17 to FY18 to date based on the same months. DDA will continue to monitor this metric as it completes its hospitalization study based on SRI data.

Follow-up discussion on MRC Recommendation to QIC re End of Life Planning

- ❖ Postponed to next meeting

Announcements and Other Updates

No announcements or updates at this time.

Next Meeting: Tuesday, June 5, 2018, at DDS.
