Supported Decision-Making: What?

Ricardo and Donna

Ricardo: “**I can make my own decisions**. When I lived in an institution, I wasn’t allowed to make decisions. When I got out, I could move towards **making my own decisions with the help I wanted**. ”

Donna: “I can think for myself. **We can do things for ourselves**. We can talk up for ourselves.”

Supported Decision-Making: What?

- ▶ **Supports and services** that help an adult with a disability make his or her own decisions, by using friends, family members, and other people he or she trusts:
 - ▶ to **help understand** the issues and choices
 - ▶ **ask questions**
 - ▶ **receive explanations** in language he or she understands, and
 - ▶ **communicate** his or her own decisions to others.
- ▶ Now formally recognized in **D.C. Law 22-93** (May 2018)

The Danger of Too Many “SDMs”

- **Supported Decision-Making is NOT**
 - **Shared Decision-Making**
 - When a doctor and patient make medical decisions through consensus
 - **Substitute Decision-Making**
 - When someone else makes the decision for the person

Or, as Defined in DC Law 22-93

- “Supported decision-making” means “a process of **supporting and accommodating** an adult with a disability in order to:
 - A. Assist** the adult with a disability **in understanding** the options, responsibilities, and consequences of life decisions; and
 - B. Enable** the **adult with a disability to make life decisions**, without impeding the self-determination of the adult with a disability or making decisions for the adult with a disability”
- D.C. Code § 7-2131(11)

Supported Decision-Making: Why?

Ryan's Story

Ryan: “**Don’t judge me before you know me.**”

Herb, Ryan’s father: “Ryan is a whole person. We want him to be whole. **The decision process is part of being whole . . .** If I try to force Ryan to do something, I am destroying his selfness and being whole. **He is a whole person and he is making decisions and I encourage him.**”

Supported Decision-Making: How?

- ▶ There is **no “one size fits all” method** of Supported Decision-Making
 - SDM **looks different** for different people and families
- ▶ **It is a paradigm**, not a process or program
 - It means **working with the person** to identify where help is needed and finding a way to provide any help that’s needed, so the person can **make his or her own decisions**.
 - The key question is **“what will it take?”**

Myths of Supported Decision-Making

- ⊘ Supported Decision-Making isn't legally "official" → FALSE
- ⊘ People with certain kinds of disabilities don't have the capacity to use Supported Decision-Making. → FALSE
